The current year brought a change of teachers in every school in town except Brookside. Miss Sherman is doing satisfactory work there for the fourth consecutive year. It is a noteworthy fact that we have no inexperienced teachers

in town. Four of the six have had training which entitles the town to five dollars state aid for each week they teach.

Mr. Powers was re-elected in June with no sound of dissent from the representations of the nine towns he serves.

Practically all the money expended for repairs was used at Williamsville where chemical toilets were installed and the lighting changed.

Considerable painting should be done the coming year, at least three of the five buildings being in need of such work.

Respectfully submitted,

MARY J. WHITAKER,

Clerk.

M. J. WHITAKER,	}	School Board.

H. T. OSBORN,

HAROLD WHITAKER,

Auditors.

School Superintendent's Report

To the Citizens of Windham Central District:

Your superintendent presents the following brief report. The organization of the Windham Central District is as follows: chairman, W. H. Rogers of Townshend; secretary, Mrs. Mary J. Whitaker of Newfane. In the nine towns which comprise this district there is a school population of 576 distributed among thirty-five schools. There are thirty-eight full-time teachers and one part-time teacher.

From the opening of the schools in September until January 1, 268 school visits had been made. The mileage covered in making these visits was 2,789 miles. These figures you will note are for only four months of the school year. In addition to the regular school visits the superintendent has attended numerous board meetings and has made many calls on parents and other citizens, all in the interests of the schools. The superintendent attended both the superintendents' conference and state teachers' meeting at Rutland and the Boston meeting of the New England superintendents.

The following table shows the grade of certification of your teachers.

No. of Teachers	Grade of Certificate
7	Elementary Limited Standard.
9	Elementary Limited Probationary.
3	Elementary Professional Probationary.
6	Elementary Professional Standard.
10	Qualification.
1	"Old" Life.
2	High School Professional Probationary.
1	High School Professional Standard.

The routine work of the schools has been much the same as in other years. There is a constantly increasing effort to try to link up the pupils' work in school with the everyday life about them. In the eighth grade especial emphasis is placed on the study of local and state government. Vermont geography and history are stressed. In arithmetic, the Vermont method of figuring taxes is taught.

In the present year's work there are three outstanding features: viz., the unusual amount of permanent repair work leading toward standardization; the health program being carried out in practically all the schools; and the unprecedented record for attendance during the fall term.

Every town in the district has been carrying on some improvement program. The North School in the town of Athens completed its standardization work with the building of a new chimney and the installation of a ventilating heater. Brookline gave its prize school another coat of paint and graded the grounds. At the Canaan School in East Dover chemical toilets were installed and at the West School a new heater was bought. The Walker School in the town of Grafton was thoroughly overhauled; the ceiling raised, the interior newly painted, and the toilets rebuilt. At the River School in Jamaica chemical toilets were installed; at the Village School the lighting was partially changed and new slate blackboards purchased. At Pikes Falls the underpinning was repaired, a new sill put in and a hard wood floor laid. At South Hill a chemical toilet was installed and the woodshed repaired. In Marlboro the Four Corners School was improved by the addition of a ventilating heater, chemical toilets, a new blackboard, and many minor repairs. The Winchester School in the same town was newly painted. At Williamsville in Newfane the lighting has been changed, warm coat rooms provided, and chemical toilets installed. At West Townshend a basement heater has been installed. All the schools in Wardsboro have received some attention. The painting jobs at the

South and City Schools were completed last spring. During the summer the interior of the Center School was painted. Plans are now under way to start permanent improvements at the West School.

Every town in the district has reason to feel proud of its achievements. There has been the most cordial co-operation between school boards and community organizations. In many instances it has been the gifts from individuals and community organizations which have made the work possible.

Again we are deeply indebted to the Thompson Trust Fund of Brattleboro for the continued health work in our schools. Last fall Mr. Bradley employed an assistant for Miss Harriett Davis. This leaves Miss Davis free to carry on her work more in the nature of health supervision. She makes regular visits in all the schools giving definite instruction and suggesting various lines of health work. The assistant, Miss Austin, does the prophylactic work. In almost every instance the children are willing and eager to have their teeth cleaned. We are fortunate indeed to have this work in our schools.

The average percentage of attendance for the whole district during the fall term was 95.4 per cent. The school having the highest attendance was the Winchester School in Marlboro with 99.5 per cent. No school fell below 90 per cent. We have every reason to believe that the persistent health work carried on in the schools during the past two or three years is reflected in this high attendance record. Better health makes for better attendance.

The list of "standard" and "superior" schools is as follows:

Standard

Athens	North School
Brookline	Union School
Grafton	Grammar School
Grafton	Primary School
Marlboro	Adams School
Newfane	Union School
Townshend	Intermediate School
Townshend	Primary School

Superior

Newfane	Grammar School
Newfane	Primary School

Within a few weeks the Four Corners School in Marlboro and the West Townshend School will receive their standard rating.

In closing a word of commendation and encouragement should be given to the excellent group of teachers throughout the district. The superintendent may make scores of visits and the building and equipment may be brought up to a high degree of excellence, but the real success of any school depends upon the faithful, tireless efforts of the teacher.

Respectfully submitted,

G. W. POWERS,

Superintendent of Schools.

NOTICE FOR ANNUAL TOWN MEETING

The legal voters of the town of Newfane, Vt., are hereby notified and warned to meet at Grange Hall, Williamsville, Vt., on Tuesday, the fifth day of March next, at 10 o'clock a.m., to act on the following articles, to wit:

Article 1. To elect a moderator and a town clerk.

Article 2. To act upon the auditors' report.

Article 3. To see if the town will authorize the selectmen to appoint one or two road commissioners for the ensuing year, or elect them by ballot.

Article 4. To elect all town officers required by law for the ensuing year.

Article 5. To see if the town will elect one or more railroad commissioners.

Article 6. To see how much the town will vote to pay its officers for the ensuing year.

Article 7. To see what sum, if any, the town will appropriate to help defray the expenses of Memorial Day.

Article 8. To see what sum, if any, the town will appropriate for permanent highways, or for resurfacing.

Article 9. To see what sum of money or per cent of the grand list the town will raise by taxation to defray its expenses and liabilities for the ensuing year, and how it shall be collected.

Article 10. To transact any other business that may legally come before said meeting.

A. O. HOWE,
W. C. BALLOU,
I. W. WILLIAMS,
Selectmen.

Newfane, Vt.,
February 15, 1929.

BRIDGE WORK DONE BY THE SELECTMEN DURING THE
PAST YEAR

The Branch bridge was repaired with a new flooring, six new needle beams, a buckled wooden truss was pulled up into shape and repaired. The southwest retaining wall of this bridge being in a dangerous condition was temporarily braced up with heavy timbers.

The Beattie bridge, a steel girder bridge 40 feet long and 16 feet above water, one end of which fell into the stream, caused by the retaining wall falling out and taking the abutment with it, was repaired by jacking the bridge up into place, removing the remains of the old abutment and building a massive cement abutment in its place.

The cement retaining walls at the Randall bridge being in a dangerous condition due to the brook washing in under them for a distance of seventy-five feet, were repaired by putting a substantial cement footing underneath them, and digging out the bed of the brook with the object of giving a course for the water farther away from the walls.

The old iron Bill's bridge, 60 feet long, was taken down. One half of this, making a bridge 30 feet long, was put up in place of the wooden stringer bridge at Wm. Wilson's.

The other half of this bridge was taken to the Baxter bridge where it later can be put in to replace the wooden stringer bridge there.

A substantial new wooden stringer bridge was put in place over Baker brook at what is known as crooked bridge. The bridge above this was replaced with new stringers and new floor.

New railings, painting and repairs were done at several other bridges.

ARTHUR O. HOWE.

The foregoing summary shows that several items of expense have been unusually high the past year. We now have seventeen pupils in high school which makes "advanced instruction" amount to a considerable sum.

Transportation has been provided where hitherto it has been unnecessary. The superintendent's salary is slightly higher but when traveling expenses are deducted it is low

for such faithful and efficient services. This was the year for the renewal of insurance which makes that item larger.

Williamsville school was awarded a "standard" plate last fall. The outlay to make this school deserving of such a plate was large owing to the size of the building. It must be borne in mind that in order to receive state aid we have to meet state requirements. We have done no more than meet them.

Mr. H. A. Williams' gift of one hundred dollars was upon condition that the school be made standard. When money is raised for such school purposes by means other than taxation the state contributes a like sum. So we received a hundred dollars from the state to match Mr. Williams' gift. We also received fifty dollars from the Brattleboro Daily Reformer, a prize for the school in Windham county which made the greatest improvement.

We are using the balance of the special appropriation of one hundred and twenty-five dollars made for the improvement of the school yard at Williamsville.

We have been, and still are, receiving tuition from Dummerston for pupils attending this school and such money may rightly be applied to offset expenditures there.

The ceilings at the village schools were cleaned last summer and the entire interior repainted. The exterior needs painting the coming year.

The interior at Union district was also repainted.

Four of our six teachers are now in buildings which are a credit to the town and the remaining buildings can be made satisfactory with a comparatively small outlay.

Respectfully submitted,

MARY J. WHITAKER,
Clerk.

F. L. STRATTON,	}	School Directors.
F. O. GOULD,		
MARY J. WHITAKER,		

School Superintendent's Report

To the Citizens of Windham Central District:

The superintendent of schools presents the following report. The organization of the Windham Central District remains the same as last year: chairman, W. H. Rogers, Townshend, secretary, Mrs. Mary J. Whitaker of Newfane. In the nine towns which comprise this district there is a school population of 594 distributed among 35 schools. There are thirty-eight full time teachers and two part time teachers.

During the four months from September first to January first the superintendent made 340 school visits. The mileage covered was 3,387 miles. For the last full school year which ended July first the total number of visits was 588 and the mileage was 6,530 miles. In addition to the regular school visits the superintendent has attended various board meetings and made many personal interviews. During July and August much time was spent in planning the various building improvement projects. Contact has been made with educational work outside of these immediate towns through attendance at the annual superintendents' conference held at Castleton, the State Teachers' meeting in Burlington and the New England Conference at Boston.

In looking back over the past few years there are several things which stand out rather prominently and are encouraging to those who are interested in the schools and the welfare of the various communities.

In 1922, one-fifth of all the teachers in the district were teaching on permits. At present every teacher holds a state certificate.

At the beginning of this same period there was not a single school that would rate as "standard." Now there are thirteen schools that hold either the "standard" or "superior" rating. There are sixteen other schools where improve-

ments leading to standardization have been commenced. Last summer an unusually large amount of repair work was accomplished. As has been frequently stated in these reports much of this work has been made possible through the coöperation of the community with the school board, and every effort has been made to do the work in such a way that the maximum amount of state aid might be realized.

For the third time in a comparatively few years one of the prizes for improvement of school buildings came to this district. The Williamsville school won the third prize of fifty dollars donated by the Brattleboro Reformer.

Eight years ago there was no regular medical inspection in the schools. Last year every town in this district provided medical inspection for the pupils in the schools. This is decidedly a step in the right direction.

Each year the Thompson Trust Fund enlarges its work in our territory. Practically every school in the district was visited during the fall by the nurse and dental hygienist. Few sections of the state are so fortunate in their health program. Miss Delaplane of the Green Mountain Camp visits and assists in the schools where the Brattleboro Training Class graduates are teaching, and is willing to help in other schools so far as time will permit.

The attendance throughout the district is good. Last spring two schools made a record attendance of 100%.

Each year a good proportion of our eighth grade pupils go on to high schools and academies and for the most part "make good."

A very encouraging thing from the superintendent's point of view has been the willingness of the various boards to purchase new text books. Three towns have added very materially to their teaching material and in several others, inventories have been taken and plans made for replacing the worn out books.

Another most encouraging thing is the fact that in practically every town where there are "standard" or "superior"

schools the school boards are making an effort to keep these buildings in the best of repair. They are being painted as need arises; small repairs are attended to and the buildings are being kept in first-class shape. This is as it should be, and the superintendent would urge the citizens to continue to give their various school boards the heartiest support and coöperation.

In spite of all these signs of progress and improvement there still remain many perplexing problems. It is difficult to finance the schools because there is so little property to tax. Transportation of remote pupils offers an unending problem to school boards.

The list of "standard" and "superior" schools in this district is as follows:

	Standard	Superior
Athens	North School	Newfane Grammar School
Brookline	Union School	Newfane Primary School
Grafton	Primary School	
Grafton	Grammar School	
Marlbòro	Adams School	
Marlboro	Four Corners School	
Newfane	Union School	
Newfane	Williamsville School	
Townshend	Intermediate School	
Townshend	Primary School	
Townshend	West School	

The superintendent speaks for both himself and the teachers in gratefully acknowledging your support and coöperation.

Respectfully submitted,

G. W. POWERS,

Superintendent of Schools.

February 1, 1930.

NOTICE FOR ANNUAL TOWN MEETING

The legal voters of the town of Newfane, Vt., are hereby notified and warned to meet at Union Hall, Newfane, Vt., on Tuesday, the fourth day of March next, at 10 o'clock a.m., to act on the following articles, to wit:

Article 1. To elect a moderator and a town clerk.

Article 2. To act upon the auditors' report.

Article 3. To see if the town will authorize the selectmen to appoint one or two road commissioners for the ensuing year, or elect them by ballot.

Article 4. To elect all town officers required by law for the ensuing year.

Article 5. To see if the town will elect one or more railroad commissioners.

Article 6. To see how much the town will vote to pay its officers for the ensuing year.

Article 7. To see what sum, if any, the town will appropriate to help defray the expenses of Memorial Day.

Article 8. To see what sum, if any, the town will appropriate for permanent highways, or for resurfacing.

Article 9. To see what sum of money or per cent of the grand list the town will raise by taxation to defray its expenses and liabilities for the ensuing year, and how it shall be collected.

Article 10. To see if the town will vote to sell the Parish school house.

Article 11. To transact any other business that may legally come before said meeting.

A. O. HOWE,
W. C. BALLOU,
I. W. WILLIAMS,

Selectmen.

Newfane, Vt.,
February 15, 1930.

School Directors' Report

Schools have been maintained as usual and the financial report seems to cover the facts which should be in the hands of the voters.

We now have twenty-two pupils in secondary schools.

We have done no repairing or rebuilding this year in an effort to keep down expenses. Something will *have* to be done at South Newfane soon but just what is a problem to all interested. We have had some encouragement regarding outside aid but at this writing it hasn't become a definite proposition.

The exterior of the village building must be painted to preserve it.

MARY J. WHITAKER,
Clerk.

F. O. GOULD,	}	School Directors.
MARY J. WHITAKER,		
F. L. STRATTON,		

School Superintendent's Report

To the Citizens of Windham Central District:

The superintendent of schools presents the following report. The organization of the district remains the same as last year: Chairman, W. H. Rogers, Townshend; Secretary, Mrs. Mary J. Whitaker of Newfane. In the nine towns which comprise this district there is a school population of 601 distributed among 34 schools. There are thirty-seven full-time teachers and one part-time teacher. In 1926-27 the number of pupils enrolled was only 588. It is encouraging to note that there has been a slight increase in the enrollment.

During the four months from September first to January first the superintendent made 346 school visits. The mileage covered was 3,326 miles. For the last full school year which ended July first the total number of visits was 672 and the mileage was 6,621 miles. In addition to the regular school visits there has been the usual number of board meetings and many personal interviews. During the summer much time was spent planning the various building improvement projects. The superintendent has endeavored to attend a reasonable number of the state and district educational meetings. It was his privilege last February to attend the national meeting of the Department of Superintendence held at Atlantic City.

During the year past term reports have been required of the teachers. Tests have been given to check up on the work being done in the classes. Circular letters dealing with different phases of school work have been sent to the teachers from time to time as need has arisen.

During the fall and winter a determined effort has been made to give the eighth grade pupils a thorough and practical course in Civics with especial attention to local government.

This has included a study of Vermont taxes, the proper marking of ballots and the duties of town officers.

One of the most perplexing problems for teachers and superintendent is that of the proper marking and promotion of pupils. The superintendent is confident that we err more frequently in making promotion too easy, especially from the eighth grade to the high school. It is discouraging to the pupil to find himself in the freshman class and unable to carry the work. It is also unfair to the town paying the tuition, for this pupil could have repeated the eighth grade without any additional expense to the town and would finally be in better shape for advanced work. The eight school years of thirty-four weeks each are too short a time in which to cover all the work now required. Many of our villages and cities have thirty-six and sometimes thirty-eight weeks of school. Over an eight year period this makes a very appreciable difference.

The state board of education has ruled that, beginning with the present year, 1931, all teachers entering the profession must have two years of normal training in order to receive a certificate. This does not apply to those already teaching. How this new policy will affect the filling of our rural vacancies remains to be seen. Probably very little difficulty will be experienced because there appears to be a surplus of candidates in the neighboring states who are willing to take rural schools here in Vermont.

The pupils in this district continue to benefit from the Thompson Trust Fund in Brattleboro. This organization provides both a nurse and dental hygienist. The Green Mountain Camp Association each year offers camp scholarships to worthy girls. The Parent-Teacher Associations are still a strong factor in carrying forward school improvement programs.

For the fourth time in a comparatively few years one of the prizes for the improvement of school buildings has come to this district. The North Street School in East Dover won

the second Proctor prize of fifty dollars. The following schools received honorable mention: Branch School, Marlboro; South Hill School, Jamaica; River School, Jamaica; Rawsonville School, Jamaica and the West School in Wardsboro.

The superintendent would like to urge that the boards continue their present policy of making some repairs and improvements every year. This avoids piling up an enormous repair bill in any one year. This applies to the purchase of books also. Books wear out and become out of date in a surprisingly short time, but a reasonable amount spent each year will provide the teachers and pupils with the necessary tools for their work.

The superintendent is becoming more and more convinced that our school property should be, not merely, in passable condition, but that it should be in such good and attractive condition that it will be a pleasure to the pupils to be in school and an inspiration to them to do their best work.

Four of the Newfane schools are in good condition. The South Newfane School is in serious need of repairs and improvements. The location at the junction of two roads makes a very real danger to the children. There is practically no playground except the highway. This situation calls for the thoughtful consideration of the school board and all interested citizens.

The list of "standard" and "superior" schools in this district is as follows:

	Standard	Superior
Athens	North School	Newfane Grammar School
Brookline	Union School	Newfane Primary School
Dover	North Street School	
Grafton	Grammar School	
Grafton	Primary School	
Marlboro	Adams School	
Newfane	Union School	
Newfane	Williamsville School	
Townshend	Intermediate School	
Townshend	Primary School	
Townshend	West School	

You are invited and urged to visit your schools frequently. Only in this way can you get first-hand knowledge of the work that is being done. More than this your interest will serve to encourage both pupils and teacher. The superintendent gratefully acknowledges the assistance and coöperation of the teachers, the various school boards and citizens of the district.

Respectfully submitted,

G. W. POWERS,
Superintendent of Schools.

February 1, 1931.

NOTICE FOR ANNUAL TOWN MEETING

The legal voters of the town of Newfane, Vt. are hereby notified and warned to meet at Union Hall, Newfane, Vt., on Tuesday the third day of March next, at 10 o'clock A. M. to act on the following articles, to wit:

Article 1. To elect a moderator and a town clerk.

Article 2. To act upon the auditors' report.

Article 3. To see if the town will authorize the selectmen to appoint one or two road commissioners for the ensuing year or elect them by ballots.

Article 4. To elect all town officers required by law for the ensuing year.

Article 5. To see if the town will elect one or more railroad commissioners.

Article 6. To see how much the town will vote to pay its officers for the ensuing year.

Article 7. To see what sum, if any, the town will appropriate to help defray the expenses of Memorial Day.

Article 8. To see what sum, if any, the town will appropriate for permanent highways, or for resurfacing.

Article 9. To see what sum of money or per cent of the grand list the town will raise by taxation to defray its expenses and liabilities for the ensuing year, and how it shall be collected.

Article 10. To see if the town will buy a snow plow and tractor.

Article 11. To see if the town will vote to sell the Randall schoolhouse.

Article 12. To transact any other business that may legally come before said meeting.

A. O. HOWE,
W. C. BALLOU,
I. W. WILLIAMS,

Selectmen.

School Directors' Report

The following is copied from the clerk's record of a school board meeting held at South Newfane schoolhouse August 12, 1931.

The building at South Newfane was discussed by those present, also the prospects of outside aid in financing extensive repairs or a new building.

It was decided to make it plain to any and all interested that if a new building was desired, or moving the present building and making extensive repairs, or making extensive repairs at the present site, the board wanted a definite statement, to bring to the voters assembled at the next town meeting, as to how much they could provide for such a project. If such amount is insufficient to justify complete remodeling, less expensive plans may be made.

Directors present at this meeting were Mary J. Whitaker, F. L. Stratton, C. L. Hescock.

MARY J. WHITAKER,
Clerk of Board.

School Superintendent's Report

To the Citizens of Windham Central District:

The superintendent of schools presents the following brief report. At the annual district meeting held in Newfane last June, W. H. Rogers, of Townshend, was reelected as chairman and Mrs. Mary J. Whitaker, of Newfane, as secretary. A new town, Winhall, was added to the district. This makes ten towns. It is now one of the largest supervisory districts in the state so far as the number of towns and area is concerned. In these ten towns there is at present a school population of 706 distributed among 36 schools. There are thirty-nine full-time teachers and one part-time teacher.

During the four months from September first to January first, the superintendent made 337 school visits and the mileage covered in making these visits was 3,265 miles. For the last full school year which ended July first, the total number of visits was 658 and the mileage was 6,449 miles.

During the past summer there was an unusual amount of activity in the matter of school improvement. Practically every town in the district did something in the way of either permanent or incidental repairs. The school boards and communities are to be congratulated. The superintendent firmly believes that a reasonable amount of repair and upkeep work should be done every year. It should be just as much a part of our program as hiring teachers and buying fuel. In the long run it is good economy and meantime our children have the advantage of comfortable and attractive schools.

The results of the summer's activities were apparent when the prizes for improvement were awarded in October. Every single prize awarded in Windham County for improvement came to this district. The first Proctor prize of one hundred dollars was awarded to the West School in Dover. The second Proctor prize of fifty dollars was awarded to the

Pettengill School in Grafton. The third prize of thirty dollars given by the Brattleboro *Reformer* was won by the Branch School in Marlboro, and the fourth prize of twenty dollars went to the West School in Wardsboro. The third prize of twenty-five dollars in Bennington County came to the Bondville School in Winhall. In addition to this the following schools received honorable mention: City School in Wardsboro; North School in Athens; the Village, River, and South Hill Schools in Jamaica; the Walker School in Grafton, and the Slade School in Winhall. Four of these schools have been approved as "standard." This makes eighteen schools which are rated either as "standard" or "superior." Four more are almost ready for approval.

This program for the improvement of the school buildings has been under way for some eight or ten years. During this period there has been a corresponding improvement in the training of the teaching force. In 1922 one-fifth of the teachers in the district were teaching on permits. This year every teacher in our rural schools holds a certificate, and sixteen of them have had two or more years' normal training. These are gains that have been built up slowly and with much effort. We are in the midst of depressing business conditions, but we must be careful not to lose all that we have gained through these years of effort.

For two years now a very special effort has been made to give the upper grade pupils a reasonably thorough understanding of local, state, and national government. The eighth grade pupils are required to work out a rather extensive project in Civics. They are taught to understand the meaning of the "grand list" and how to figure a person's taxes. In only a very few years these boys and girls will be voters and office holders. If we are to have a well informed electorate our pupils must be interested in and informed about the current problems of the town, the state, and the country at large.

It is possible that we have failed to fully appreciate the splendid health program which is being carried on in the district through the generosity of the Thompson Trust Fund of Brattleboro. This organization furnishes the services of Miss Madeline Kelley, school nurse. Miss Kelley visits the schools regularly and is very conscientious and faithful in her work, and the superintendent takes this opportunity to publicly express the appreciation of the citizens of the district to the Thompson Trust Fund for its services in our schools.

In Newfane, three out of the five school buildings now in use are in good condition. The South Newfane and Brookside Schools need some attention, especially the South Newfane School. In spite of the serious business condition now existing, the superintendent ventures to urge that this matter be given very careful consideration. During this next school year the usual state aid for approved repairs will be available. After another legislature meets it is uncertain whether this help will be continued.

At the Village School through the efforts of the Parent Teacher Association, the pupils, and teacher, music instruction has been provided. Miss Alice Jackson, formerly music supervisor in Rockingham, comes to the school once a week. The children are taking a great deal of interest and the work is progressing well.

Again the superintendent invites and urges you to visit your schools. It will encourage both pupils and teachers. The schools are yours and for your children. The superintendent gratefully acknowledges the assistance and cooperation of the teachers, the various school boards, and citizens of the district.

Respectfully submitted,

G. W. POWERS,

Superintendent of Schools.

Notice for Annual Town Meeting

The legal voters of the town of Newfane, Vt., are hereby notified and warned to meet at Grange Hall, Williamsville, Vt., on Tuesday the first day of March next at 10 o'clock A. M., to act on the following articles, to wit:

Article 1. To elect a moderator and a town clerk.

Article 2. To act upon the auditors' report.

Article 3. To see if the town will authorize the selectmen to appoint one or two road commissioners for the ensuing year or elect them by ballots.

Article 4. To elect all town officers required by law for the ensuing year.

Article 5. To see how much the town will vote to pay its officers for the ensuing year.

Article 6. To see what sum, if any, the town will appropriate to help defray the expenses of Memorial Day. 225.

Article 7. To see what sum, if any, the town will appropriate for permanent highways, or for resurfacing. 500 —

Article 8. To see what sum of money or per cent of the grand list the town will raise by taxation to defray its expenses and liabilities for the ensuing year, and how it shall be collected.

Article 9. To transact any other business that may legally come before said meeting.

ARTHUR O. HOWE,
W. C. BALLOU,
IRVING W. WILLIAMS,
Selectmen.

Newfane, Vt., February 15, 1932.

Two members of the school board have visited all the schools in town since the fall term began and the third member of the board is well known to most of the parents.

We feel that efficiency in the schools has not been sacrificed to economy although nearly every item listed in the foregoing financial summary is less than the corresponding item of the previous year.

The board met with Supt. Powers at South Newfane again last summer. We decided to move the building back a few feet if land could be procured and begin some much needed repair work. We were unable to secure the land. It seems some work must be done there soon. If we delay there is the probability of less state aid for such projects in the near future. If next year's appropriation is the same as this year's, we hope to be able to use a part of it for the repairs which seem to be needed most.

MARY J. WHITAKER,
Clerk and Chairman.

School Superintendent's Report

To the Citizens of Windham Central District:

The superintendent of schools submits the following brief report. The district includes ten townships, and the district officers are as follows: W. H. Rogers of Townshend, chairman, and Mrs. Mary J. Whitaker of Newfane, secretary. In these ten towns there is at present a school population of 746. This is an increase of 34 over last year's enrollment. There are employed in the district, 40 teachers.

During the four months from September 1st to January 1st the superintendent made 350 school visits and the mileage covered in making these visits was 3470 miles. For the last full school year, which ended July first the total number of visits was 712 and the mileage covered was 7358 miles. In addition to the regular school visits there has been the usual number of board meetings and also many personal interviews. In order to keep in touch with outside activities, the superintendent has endeavored to attend a reasonable number of district and state educational meetings.

A considerable amount of permanent improvement work was done during the past summer. Two of the prizes offered by the Brattleboro Reformer for improvement work came to this district; one of twenty dollars to the Taylor Hill School in Winhall and one of fifteen to the Pikes Falls School in Jamaica. During the summer work was completed at the West School in Wardsboro and it was awarded the "Standard" rating. Several other schools in the district are almost ready for approval.

Each year the superintendent in his annual report has urged a reasonable yearly outlay for incidental repairs and upkeep. In spite of the unfavorable business conditions which exist he would still urge that this policy be maintained for if we let these small repair items go, in a few years there

will be a big job and heavy expense facing us. In the general effort to keep down costs, very few books have been purchased during the year. This should not go too long for in the end it will be poor economy.

The improvement in our schools has by no means all been on the material side. Attention should be called to the fact that of the thirty-five rural teachers in this district, twenty have had two or more years of normal training. We are fortunate this year in having from time to time the services of one of the state helping teachers. The deputy state commissioner is frequently in the schools and always ready to counsel and advise in matters of school policy. Frequently, as need arises, circular letters dealing with different phases of school work are sent to the teachers. Each year a determined effort is made to give the eighth grade pupils a thorough and practical course in Civics with especial attention to local government. Eighty-five per cent of those completing the eighth grade last spring went on to high school and a careful check shows that the large majority of these are carrying on the work successfully.

Again the Thompson Trust Fund is assuming responsibility for the health work in the district. The dental hygienists have worked in all the schools and Miss Kelley, the health nurse, makes regular visits.

There is now available in the state standardization fund over \$30,000 to be distributed on the so called one third basis for repairs leading to standardization. Towns are urged to avail themselves of this opportunity to complete projects now under way. These funds will be available until June first. If there is any possibility that the improvement work will be undertaken at the South School it is an excellent time while these state funds are still available.

During the ten year period just closing the rural schools of Vermont have gone a long way on their improvement program. To maintain these gains during the present years of unsettled business conditions may be difficult, but it will be

worth the effort. Schools exist for the children and we ought not to lose sight of the fact that a child has but one life to live and that he can pass through the schools but once.

The superintendent gratefully acknowledges the assistance and coöperation of the teachers, the various school boards and the citizens of the district.

Respectfully submitted,

G. W. POWERS,

Superintendent of Schools.

NOTICE FOR ANNUAL TOWN MEETING

The legal voters of the town of Newfane, Vt., are hereby notified and warned to meet at Grange Hall, Williamsville, Vt., on Tuesday the seventh of March, next, at 10 o'clock A. M., to act on the following articles, to wit:

Article 1. To elect a moderator and a town clerk.

Article 2. To act upon the auditors' report.

Article 3. To see if the town will authorize the selectmen to appoint one or two road commissioners for the ensuing year or elect them by ballots.

Article 4. To elect all town officers required by law for the ensuing year.

Article 5. To see how much the town will vote to pay its officers for the ensuing year.

Article 6. To see what sum, if any, the town will appropriate to help defray the expenses of Memorial Day.

Article 7. To see what sum, if any, the town will appropriate for permanent highways, or for resurfacing.

Article 8. To see what sum of money or per cent of the Grand List the town will raise by taxation to defray its expenses and liabilities for the ensuing year, and how it shall be collected.

Article 9. To see if the town will authorize the selectmen to borrow money in anticipation of taxes.

Article 10. To see what sum, if any, the town will appropriate to help defray the expenses or for equipment of the Newfane fire truck of the West River Valley, Post 16, American Legion Fire Department.

Article 11. To transact any other business that may legally come before said meeting.

ARTHUR O. HOWE,
W. C. BALLOU,
IRVING W. WILLIAMS,
Selectmen.

Newfane, Vt.,
February 15, 1933.

School Directors' Report

To the Citizens of Newfane:

The board has endeavored to reduce expenses this year even more than last. Teachers and superintendent receive smaller salaries. Since September four schools have been maintained instead of five. The transportation of South Newfane pupils to Williamsville has made that school larger than we expected it would be when we planned the combination. The school at Newfane has also been unusually large this year.

The building at South Newfane is being repaired as a Civil Works project. We will also receive state aid for this work and we hope when the school is re-opened it will be "standard."

The interior of the buildings at Brookside and Newfane need repainting.

If the school at South Newfane is re-opened next fall we will surely need as large a rate on the dollar as we have had this year.

MARY J. WHITAKER,

Clerk of Board.

School Superintendent's Report

To the Citizens of Windham Central District:

When schools opened last September there was in this district a school population of 756. This is an increase of ten over last year's enrollment and an increase of fifty over the enrollment two years ago. Various curtailments and economies have been necessary in all of the towns, but thanks to the careful planning of the school boards and continued support of the citizens our schools have suffered much less during the past year or two than schools in other parts of the country or even in other parts of our own state.

The routine work of the schools is being carried on vigorously. Tests have been sent out from time to time. The eighth grade classes have just completed a project in Civics dealing largely with local government and the new federal activities. The state helping teacher made several visits in the district during the fall. The health work sponsored by the Thompson Trust Fund is being carried on as usual. Several communities through the assistance of the P. T. A. or other local organizations are providing for music instruction.

Although there was much less permanent repair work done in the district during the past summer, the two prizes given by the Brattleboro Reformer for rural school improvement were awarded to schools in this district; the first to South Wardsboro and the second to the River School in East Jamaica. Practically every town made incidental repairs on their school buildings thus keeping the property in good shape and maintaining our "superior" and "standard" ratings. This is most gratifying for the superintendent has always felt that definite provision should be made in the yearly budget for the annual repair and upkeep of the school property.

A rather unusual development this year has been the repair work which has been started under the incentive of the

C.W.A. program. At present there are four different jobs under the C.W.A. either going on or finished. At South Wardsboro the schoolhouse has been shingled and a new chimney built. At West Wardsboro one side of the school building has been shingled. At Athens running water is being piped to the school. In South Newfane the school building has been moved farther back from the road and is being completely remodeled. The labor for all of these projects is provided by federal funds. In a few places we are taking advantage of C.W.A. funds to employ a woman to help with the hot lunches.

The superintendent is anxious to bring to your attention the importance and value of the state aid provided for rural schools in our small towns, especially in towns having a grand list of less than five thousand dollars. For the school year ending June 30, 1933, the gross school expenses for the town of Newfane was \$6,879.45. The state rebates for this same year were \$1,324.21. In other words, 19 per cent of our school expenses were paid by state funds. There is a tendency for legislatures to pare down these school appropriations thus reducing the amount of state aid which comes back to the small towns. Although the next legislature is a year distant it is none too early to commence discussing this matter of state support for schools. Some believe that the state should assume an even larger share of the school costs than at present. Others go still further and believe that the federal government should come to the aid of the heavily burdened rural towns. These matters deserve your careful attention.

The organization of the district remains the same, and the officers are as follows: W. H. Rogers of Townshend, chairman, and Mrs. Mary J. Whitaker of Newfane, secretary. For the last full school year which ended July first the total number of school visits was 789 and the mileage covered was 8,806 miles. For the first five months of the present school

year there have been made 402 school visits. In addition to this the superintendent has been at numerous board meetings and has endeavored to attend a reasonable number of state and district educational meetings.

Respectfully submitted,

G. W. POWERS,

Superintendent of Schools.

	By permanent fund,	6,766 50
	By cash on hand and in bank,	370 54
		<hr/> \$7,378 88

A part of the \$4,000 of 4th Liberty Loan Bonds in the permanent fund were called as of October 15, 1933. Anticipating the call of the whole 4th Loan, the trustees decided to exchange the 4th Libertys for an equal amount of the new Treasury Bonds of 1943-45. The effect of this exchange will be to reduce the amount of interest received from this investment from \$170.00 per year to \$130.00 per year, after the year 1934.

Town Budget for 1934 as Suggested by the Selectmen

Selectmen,	\$1 39
Schools,	1 25
Road Commissioners,	50
Poor,	23
Interest,	25
Indebtedness,	25
Discount,	12
County Tax,	01
	<hr/>
	\$4 00

The increase in the budget for the selectmen is suggested to take care of the town's share for the repair of the Williamsville cement bridge in case the government will pay 30 percent of the total cost and the state $\frac{2}{3}$ of the remaining cost, if the town wishes to take advantage of the government and state aid for this purpose.

NOTICE FOR ANNUAL TOWN MEETING

The legal voters of the town of Newfane, Vt., are hereby notified and warned to meet at Union Hall, Newfane, Vt., on Tuesday the sixth of March, next, at 10 o'clock A. M., to act on the following articles, to wit:

Article 1. To elect a moderator and a town clerk.

Article 2. To act upon the auditor's report.

Article 3. To see if the town will authorize the selectmen to appoint one or two road commissioners for the ensuing year or elect them by ballot.

Article 4. To elect all town officers required by law for the ensuing year.

Article 5. To see how much the town will vote to pay its officers for the ensuing year.

Article 6. To see what sum if any, the town will appropriate to help defray the expenses of Memorial Day.

Article 7. To see if the town will vote to take advantage of government and state aid in the repair of the Williamsville bridge.

Article 8. To see what sum of money or per cent of the grand list the town will raise by taxation to defray its expenses and liabilities for the ensuing year, and how it shall be collected.

Will the town vote to collect taxes on real and personal property in installments as provided by No. 21 of the acts of 1933.

Article 9. To see if the town will authorize the selectmen and school board to borrow money in anticipation of taxes and in anticipation of Federal and state moneys allotted to the town.

Article 10. To transact any other business that may legally come before said meeting.

Arthur O. Howe,
W. C. Ballou,
I. W. Williams,

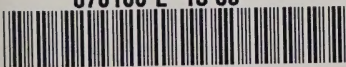

Selectmen.

Newfane, Vt.,
February 15, 1934.
